Objective

A visual designer by passion turned into profession with 7 years of experience. I focus on creative ideas to conceptualize a design into simple, elegant and innovative mobile and web-based products with users needs at the forefront. I work majorly in Mobile UI, delivering intuitive solutions to a variety of complex design problems and challenges; keeping up-to-date with current design trends & new technologies and expanding knowledge in these sectors through continuous learning process.

General Information

Full name: Ajoop Kuttappan
Nationality: Indian
DOB: 20:02:1987
Current Location: Hyderabad,

Design Proficiency

Creating modern and timely visual design solutions from concept to execution, transforming interaction ideas into wireframes, prototypes and pixel-perfect Photoshop mock ups through an eye for detail.

Crafting graphic elements like visual assets, design guidelines and visual specs at a variety of resolutions based on the requirement.

Working closely with cross-functional teams at geographically dispersed offices consisting of PMOs, UX Designers and Engineers, expressing ideas and solutions verbally and visually.

Ensuring all my work is following the corporate branding guidelines and apply and extend those through the design being created.

Understanding the technologies that power the web and mobile such as HTML5, CSS3, Java-script, Xcode with good knowledge of Adobe creative softwares.

Working knowledge of interactivity and the Web (Responsive Web Design)

Designing for corporate identity print materials like catalogues, business card etc.
